# COMMUNITY KIDS

## Books with Boroughbreds

An initiative of ACC's Community Kids program

By reading to animals at the shelter in a calm voice, we hope to make them feel more relaxed. Even though they don't understand words, they can understand our tone of voice and appreciate our company.

When the animals are comfortable with people around them, they're more likely to get adopted, too!

For more info and to sign up, please reach out to: [CommunityOutreach@nycacc.org](mailto:CommunityOutreach@nycacc.org)

## How to make Felt Pillows (cont')

**Step 5:** Take the corresponding fringes on each piece of felt and tie them together. It can be a little tricky, so it helps to keep them on a flat surface so you don't get mixed up.

**Step 6:** Continue tying all the fringes until you're finished with three sides. Leave one side open to put in all the goodies! (Tissue paper for a crumpling sound, cotton fills and catnip for extra fun!)

**Step 7:** Finish up and tie the last remaining fringes to close off the final side. After that, you are finished! You can also make other fun shapes as well. Enjoy!

Drop off donations at any ACC location and cats and humans alike will be grateful! Please visit [nycacc.org](http://nycacc.org) or email [donate@nycacc.org](mailto:donate@nycacc.org) for details.
